

First you were warned about the terrible 2's. It was not *too* bad. Then there were the troubling 3's. You *survived* those, too. **Now it's the ...**

TYRANT TWEENS

Do not abandon hope!

Kathleen Tait will help us prepare, or cope, with our children's changing brains. With the tools and knowledge imparted by Ms. Tait, we may not get our little huggy-bears back but we will learn to appreciate, guide and accept the young men and women that they are becoming and foster or maintain a relationship of mutual respect and understanding during this turbulent time. Come for information and advice.

**J.R. MASTERMAN
HOME & SCHOOL
ASSOCIATION**

Hello Juniors and families!

We know that the college application process is sometimes confusing and stressful for students and families. The Class of 2015 would like to help you by sharing their insights and tips regarding the college application process so you can benefit from their recent experience.

The counselors, Mses. Abney, Marcus & Finch will facilitate the discussion and be available to answer questions. Masterman families and students, especially juniors, are invited to attend. This is always a very informative and well attended event.

A useful tip from another year's session:

Scholarships help with costs!
